

Academic Achievement 2016

We set high academic expectations and targets and we are proud of the achievements of the children. These have been consistently high for many years.

In the academic year 2015-16 the government made significant changes to the primary school assessment requirements including higher expectations for pupils to reach by the end of Years 2 and 6. For this reasons there are no direct comparisons with previous academic years. Results for the last academic year for end of both Key Stage 1 and 2 are given below. Information comparing our results with those of other schools is available on the Department for Education website www.education.gov.uk/performanceables.

The tables below shows the percentage of eligible children at Danbury Park Community Primary School achieving each standard at the end of Key Stages 1 and 2.
